DAWSON GO

FULLY AUTOMATIC BROADBAND ANTENNA

An easy to use, fully automatic antenna system for mobile internet access that can easily be mounted onto the roof of a vehicle.

- No need for electric hook up, can be powered from 230 VAC OR vehicle battery.
- Fully waterproof, made from aluminium and stainless steel.
- Based on the Dawson range of professional antennas used by the Military, Emergency Services, and broadcasters across Europe.
- Can be used in temperatures of - 50°C to +60°C.
- Fully motorised with an elevation range of 10 – 90 degrees and Azimuth range of 200 degrees +/-.
- Fully automatic, up and running in just two minutes. It can be easily operated by non-technical users
- Operates on the Eutelsat KA-SAT, delivering hi-throughput broadband via satellite KA.
- Antenna folds down at the press of a button and can be set to stow automatically to prevent accidental damage.
- A range of optional extras are available such as internal and external WiFi kits, LNB kit for TV reception, DC convertor and cable fitting kits.

SPECIFICATION:

Dawson Auto Acquire Unit

Dimensions:
110 x 56 x 40 cm

Weight:
43Kg

Controller - 110AH Battery & Power Unit

Dimensions:
61 x 57 x 42 cm
(smaller Amo Hr Batteries available)

Weight:
52Kg

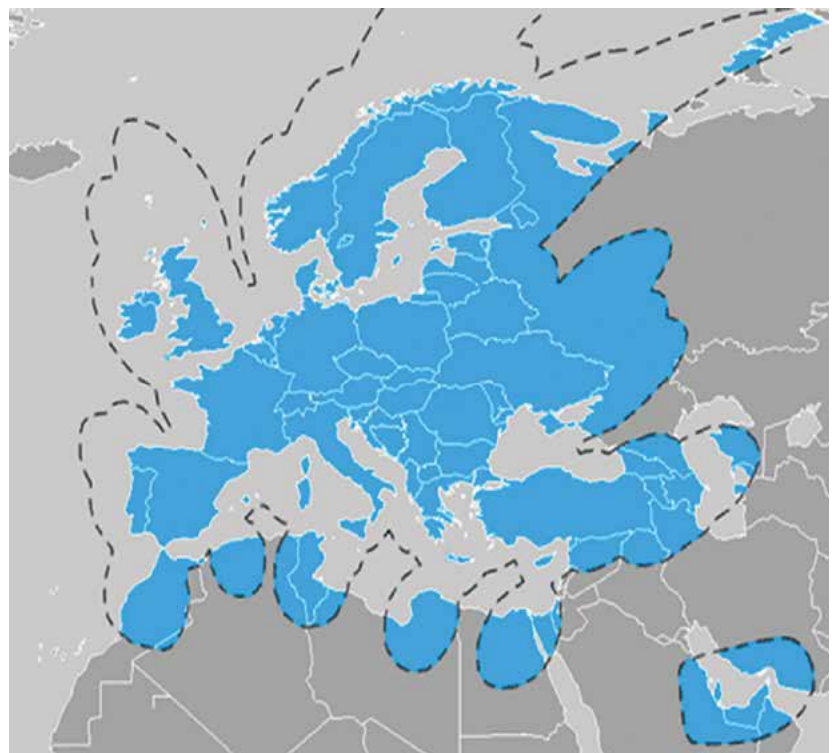

Antenna & CASE

Dimensions:
83 x 80 x 17 cm

Weight:
16Kg

Tooway coverage
